

Brand guidelines

One page with everything needed to keep MedAtlas Egypt consistent across the website, socials and ads. Clinical and premium, friendly, and sharp on AI.

BRAND IDEA – THE ATLAS LENS

- The lens.** One ring reads as a microscope lens, a petri dish and a globe (the "atlas").
- The pulse M.** A clinical trace that spells M, with two peaks that echo the Giza pyramids.
- The capstone.** A teal node on the summit, the AI spark at the top of your studying.

PERSONALITY & VOICE

Clinical, but never cold.

Clinical-premium in accuracy and layout. **Friendly** in tone. **Sharp-tech** in how AI is shown. Logos stay English. Ad copy mixes **Egyptian Arabic** with the English medical terms students already use.

LOGO SET

Clear space is at least the capstone diameter on every side. **Minimum size:** horizontal logo 120 px wide, symbol 20 px (use the favicon cut below 32 px). Use **Color** on light backgrounds, **Reversed** on dark, and **Mono** on photos or single-colour print. The Micro 301 lockup is the beta product badge and never replaces the MedAtlas logo.

COLOUR

Rough balance: **55% night**, 20% cloud or white, 12% the Nile-to-Indigo gradient, 8% papyrus, and **5% teal**, kept for AI moments and highlights. Module accents stay as they are on the platform: **CNS #7C5CFF**, **URS #14C3E0**, **REP #FF5C7A**. Capstone Gold #F5B83D is for offers only.
